

Two score and 10 years ago our forefathers brought forth, upon this campus, a new department, conceived in Liberty, and dedicated to the proposition that all planetary bodies (except Pluto and minor bodies) are created equal. It is for us, the living, rather to be dedicated here to the unfinished work which they have, thus far, so nobly carried on. It is rather for us to be here dedicated to the great task remaining before us – to drink beer.

Bratfest XXXII

1960 · Research Education Discovery · 2010
