Elizabeth Roemer, 1929-2016

Spring 2016 Faculty News

Elizabeth Roemer, 1929-2016

Professor Emerita Elizabeth (Pat) Roemer, passed away on April 8, 2016. Pat joined LPL in 1966, and retired in 1997. In 1972, Dr. Roemer chaired the committee tasked with organizing a department of planetary sciences for the University of Arizona. She specialized in comets and asteroids, starting at a time long before those were popular topics, and was a female professor in a male-dominated community long before that was commonplace. She was also a staunch friend and supporter of the LPL library for many years.
