LABORATORY**

How do I change my LPL password?

To change your LPL password:

- Choose a strong password that you have not used elsewhere.
A strong password is at least 8 characters long and contains lowercase, uppercase, numeric, **and** non-alphanumeric characters. Examples of weak passwords: a dictionary word (regardless of language), your name, your birthday, your phone number, your address, your license plate number, a relative's name.
- Use Secure Shell (SSH) to login to shell2.lpl.arizona.edu and run the UNIX passwd command.
 - Mac users, click [here](#) for details.
 - Windows users, click [here](#) for details.
 - Solaris or Linux users, click [here](#) for details.
