LPL Hawks

Fall 2009 Department News

LPL Hawks

This past summer, LPLers were treated to the site of 3 hawks who had made their home in the big Aleppo pine tree near the east entrance. Dyer Lytle took some stunning photos of the hawks. One of these is posted here. A suite of the photos is framed and on display in the LPL break room. It was a pleasure to take a work break and watch the hawks enjoying their "snacks" up in the tree. The LPL pigeon population was not so thrilled.
