

**EDUCATION:**

B.S. 1975 Forest Biology, SUNY ESF  
B.S. 1982 Geology, Northern Arizona University  
M.S. 1985 Geology, Northern Arizona University  
PhD. 1988 Planetary Geology, Arizona State University

**EMPLOYMENT:**

6/75-10/77: Peace Corps, Guatemala. Reforestation and soil conservation.  
1/78-8/80: Soil Conservationist, Soil Conservation Service, Connecticut and Pennsylvania.  
1/81-8/96: U.S. Geological Survey, Branch of Astrogeology, Flagstaff, Arizona.  
8/96-present: Lunar and Planetary Lab (LPL) and Department of Planetary Sciences, University of Arizona. Professor and Director of the Planetary Image Research Lab (PIRL). Advised/supported 16 doctoral, 3 masters, and numerous undergrad students.

**HONORS AND AWARDS:**

1982: Award from Nat. Assoc. of Science Teachers for geology field camp, Northern Arizona University.  
1985, 1990: Special Achievement Awards, USGS  
1990-present: numerous invited talks and colloquia  
1993: Superior Service Award, USGS  
1996-2011: Multiple NASA Group Achievement Awards – Galileo, Cassini, MGS, LRO, MRO  
1999: Mars crossing asteroid 1988 QD1 (Gene and Carolyn Shoemaker), named (7750) McEwen.  
2007: Shoemaker lecture, fall AGU, on “The geology of Mars as seen by MRO’s HiRISE”  
2011: NASA’s Distinguished Public Service Medal  
2015: AGU Whipple award  
2015: UA College of Science Galileo Circle

**EXTRAMURAL CITIZENSHIP**

Member of: American Geophysical Union (AGU), Geological Society of America (GSA), Division of Planetary Sciences (DPS)/American Astronomical Society  
Co-convenor of special sessions on Io for Spring 2000 and Spring 2002 AGU.  
Organizer for 2001 special section of JGR-Planets on Geology and Geophysics of Io (19 papers).  
Organizing Committee for the Jupiter Conference (Boulder, June 2001); other conferences  
Icarus editorial board, 2001-2  
Chairperson of Large Satellites Panel, National Academy of Sciences Decadal Survey, 2001-2002.  
Member of Committee on Planetary and Lunar Exploration, National Academy of Sciences, 2008-10  
Mars Science Advisory Groups for Mars Science Orbiter, Mid-Range Rover, Special Regions 2, and Mars International Collaboration  
Phoenix landing site review board, 2008  
Mars Science Laboratory (MSL) landing site steering committee, 2008-2011  
Co-convenor of special sessions (AGU, EPSC), 2005-2017  
Chair of Outer Planets Assessment Group (OPAG), 2016-present  
Member of Planetary Sciences Subcommittee to NASA Advisory Council, 2016-2017

**EXPERIENCE IN PLANETARY SPACECRAFT EXPERIMENTS:**

1989: Guest Investigator with the Voyager imaging team for Neptune encounter.  
1990-2002: Galileo Interdisciplinary Scientist associated with the Solid State Imaging team; lead role in planning and analysis of Io observations.  
1991-2018: Cassini Imaging Science Subsystem (ISS) Team; ISS observations of Titan  
1992-1994: Clementine advisory committee and science team.  
1992-2000: Participating Scientist on Mars Observer/MGS, for the Mars Orbital Camera.  
2001-2003: Participating Scientist on Mars Odyssey THEMIS.  
2001-present: **PI of HiRISE on Mars Reconnaissance Orbiter**  
2005-present Co-Investigator, Lunar Reconnaissance Orbiter Camera (LROC)  
2008-2009 PI of Io Volcano Observer (IVO) mission concept study

2009-2012 PI of PIDD grant on focal-plane system for a radiation-hard camera  
2010, 2014 PI of Io Volcano Observer proposals for Discovery  
2010-2012 PI of the High resolution Stereo Color Imager (HiSCI) on the ESA/NASA ExoMars Trace Gas Orbiter; Co-I on CaSSIS 2012-present  
2015- Deputy-PI of the Europa Imaging System (EIS) on Europa Clipper
