Apollo 13

- Third lunar landing attempt
- An explosion on board ruptured the service module oxygen tank forced Apollo 13 to circle the moon without landing
- Mission was supposed to land in the Fra Mauro area
- Launched: April 11, 1970 02:13:00 p.m. EST
- Returned to Earth: April 17, 1970 01:07:41 p.m. EST
- Upper stage successfully impacted on the Moon
- Classed as “successful failure” because of experience in rescuing crew
- Fra Mauro site was reassigned to Apollo 14

“Houston, we’ve had a problem.”
